## **EXPLORING LIFE SKILL (FORMERLY LIFE SKILLS 8) – K118**

8

1.0 credit

Life Skills 8 is a fun, interactive class that showcases you! You will learn success and motivational tips. Explore your values, goals, and communication styles. The career pathways will be explored by incorporating hands-on activities. For example, you will use the engineering process to develop candy cars and market a product “Shark Tank” style. These activities and more will prepare you for your future by determining your interests. Your final exam is a comprehensive project-based assessment assisting you in your “future you.”

## **LIFE SKILLS 9 – V285**

9

1.0 credit

The Life Skills department recognizes the importance of promoting the growth of the total individual: physical, intellectual, emotional and social. It provides instruction that will enable students to improve the quality and stability of their lives in an ever-changing society. Life Skills, a career and technical education course, explores a variety of areas such as nutrition and foods, and parenting and child development.
